

**REMARKS**

Claims 1 and 8 have been amended to obviate the necessity for a negative limitation and to clarify an objected-to term. Direct support for this amendment is found in the specification on page 13 in paragraph 44. It will be noted that the meaning of “proximal” is inherent in the claim since the proximity must be sufficient for pairs to be observed.

Thus, no new matter has been added and entry of the amendment is respectfully requested.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket No. 388512011000.

Respectfully submitted,
